

Christopher Dillon, M.B.A. M.S. is a team lead within the Office of Strategic Alliances (OSA) at NIH's National Center for Advancing Translational Sciences (NCATS) where he oversees a team that provides planning, operations and analytics support for all NCATS technology transfer activities. He and his team also spearhead outreach and marketing initiatives for the Center's Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) programs. He maintains an extensive technology transfer portfolio by developing and negotiating complex agreements in support of NCATS intramural and extramural programs and is the OSA lead for NCATS' National Clinical Cohort Collaborative (N3C). He helped launch and continues to direct the Advancing Innovation through Mentorship (AIM) program, an entrepreneurial-based program focused on customer discovery — a first of its kind at NIH.
